Education & Training

ITIL® Foundation Certificate in IT Service Management (2015),
Oracle Database SQL Expert (2013),
Oracle Database 11g: Administration Workshop (July 2013),
Oracle Database 11g: Oracle Data Integrator 11g Integration and Administration (June 2012),
Oracle Database 11g: Oracle Database 11g Advanced PLSQL (March 2012),
FastEdit Apparo (February 2011),
IBM Cognos (May 2009),
University of Split, Faculty of Computer Science

Candidate Summary

Dražen is skilled DWH/BI senior software developer with 8+ years of experience in IT industry. His specialties include database designing, modeling and administration, implementing complex PL/SQL procedures, designing business intelligence reports, designing and modeling ETL and ELT procedures, data warehousing, data mining and data analysis. He also worked as software developer using Microsoft technologies. He has strong human skills and is able to perform very well in a team.

Motivation letter (written by candidate)

I am a highly organized, thorough and motivated professional with over eight years of experience in an IT role. I possess strong analytical and problem-solving skills, with a high level of attention to detail. I am adept at working on multiple assignments simultaneously across a large range of development and maintenance projects. These have included, on my current position, designing and modeling ETL procedures, BI report designing, database modeling designing and administration... In addition to my technical skills, I possess excellent written and verbal communication skills, and I recognize the importance of these when it comes to communicating with other team members, management and clients. My time management and task prioritization skills are excellent, and I enjoy working with an enthusiastic team who are keen to exceed

company expectations. I trust you would find me to be well-spoken, energetic and confident, the type of person on whom you can rely on. I also have a wide breadth of experience of the type that gives you the versatility to place me in a number of contexts with confidence that the level of excellence you expect will be met.

I also like very much Bavarian lifestyle and considering the fact that Croatian economics are far from blooming I have decided to give myself and my family a fresh start in healthy environment in which I will move myself to the next level – professionally and personally.

Candidate Technical Score

Methodologies

ITIL	Excellent	ITIL® Foundation Certificate in IT Service Management
------	------------------	---

Other languages & frameworks

SQL	Excellent	Worked for 8+ years (PL/SQL, T-SQL)
-----	------------------	--------------------------------------

Databases

MSSQL	Excellent	Worked for 8+ years, used on many projects
Oracle	Excellent	Worked for 8+ years (Oracle Database SQL Expert certificate)
DB2	Excellent	Worked for 6+ years in everyday use

BI/DWH development environments

IBM DataStage/Informatica	Excellent	6+ years of experience in everyday use on many projects
Oracle Data Integrator ODI	Very Good	Advanced user, 3+ years of experience on couple projects
IBM Cognos	Excellent	6+ years of experience in everyday use on many projects
FastEdit Apparo	Excellent	Advanced user, 5+ years of experience on many projects
SQL Developer	Excellent	Advanced user, 6+ years of experience in everyday use
Erwin	Very Good	Advanced user, 6+ years of experience

Operating systems

Windows	Excellent	Advanced user
Linux	Good	Basic knowledge
AIX	Good	Basic knowledge

Different systems (ERP, CRM, CMS, issue tracking, DMS, source code versioning)

CVS	Very Good	Used it on couple projects
TFS	Very Good	Used it on couple of projects
JIRA	Very Good	3+ years of experience on international projects
Jenkins	Good	3+ years of experience on international projects

Projects

EMIR (European Market Infrastructure Regulation) (2013 - 2015)

Type of employment: Permanent employee

Scope of the project was to implement **Regulatory Technical Standards** outlining the given framework.

Solution for customer was web based with windows authentication and user roles. It was developed in DataStage, Oracle (PL SQL), Cognos and Apparo FastEdit. System was implemented on virtual Windows server 2008 R2 with Oracle 11.2 database.

Responsibilities included:

- Designing and development of solution in DataStage for extracting and collecting data
- Expanding and modeling datamart
- Development of new PL/SQL functions, views and packages on Oracle database for creating desired XML files
- Designing and development BI reports and Business cases using Cognos and FastEdit Apparo for running ETL procedures, Oracle packages and creating reports

RCRS (2013 - 2015)

Type of employment: Permanent employee

Project target was development and implementation of interfaces which are covering upcoming BASEL III requirements and increasing operational efficiency.

Responsibilities included:

- Development and designing of interfaces in Oracle Data Integrator
- Designing and development of solution in DataStage for setting configurations up, preparing data, running ODI scripts, packaging and sending the data
- Development of new PL/SQL functions, views and packages on Oracle database for handling logic on database level and support database links
- Issues were tracked with JIRA.

Basel III (2014 - 2015)

Type of employment: Permanent employee

Project target was to implement comprehensive set of reform measures to strengthen the regulation, supervision and risk management of the Bank.

Solution was made using DataStage, PL SQL, Cognos and FastEdit Apparo and Oracle 11.2 as a database for data storage.

Responsibilities included:

- Designing and development of solution in DataStage for extracting, transforming and storing the data in the designed data model
- Development of new PL/SQL functions, views and packages on Oracle database for handling logic on database level and support database links
- Designing and development BI reports and Business cases using Cognos and FastEdit Apparo for running ETL procedures, Oracle packages and creating reports
