Candidate Summary

Krunoslav Krljan is .NET (web) & JavaScript developer with 10+ years of experience designing and programming in (ASP).NET, focusing on complex web applications (eg, CMS, Web shop, ad server), using C #, JavaScript, CSS, HTML, MS SQL. He has developed several client/server side components/frameworks that's being actively used in may large projects. Many of existing components were modified or upgraded with features (jQuery, Knockout, LINQ 2 SQL, Ajax.NET). Some works are centered on the largest Croatian gateways or portals itself.

Motivation Letter   (written by candidate)

Currently I'm located in Croatia where I have a job in IT sector as software developer, specialized in ASP.NET, C#, JavaScript and MS SQL server. I'm looking for new challenges and international working environment where I will be able to contribute with my experience and knowledge and also be able to learn something new from colleagues. I already have a short working experience in Germany few years ago and I'm sure that commitment and hard work is appreciated and rewarded accordingly in Germany.

Candidate Technical Score

Programming concepts

Object oriented programming	**Excellent**	.NET, C# 10+ years
Algorythm solving	**Excellent**	Passed TestDome.com tests
Desktop development	**Good**	worked on few projects
Design patterns	**Good**	MVC, web forms
Web development	**Excellend**	Everyday work

Methodologies

Waterfall model	**Excellent**	Using methodology for many years
Agile	**Good**	Familiar with all principles

.NET

C# language	**Excellent**	Worked for 10+ years
Linq2Sql	**Excellent**	Worked for 5+ years

Web

HTML	**Excellent**	Worked for 10+ years
CSS	**Excellent**	Worked for 10+ years
JavaScript	**Excellent**	Worked for 10+ years

Other languages & frameworks

XML	**Excellent**	Used all the time
T-SQL	**Excellent**	Worked for 10+ years
C	**Excellent**	Worked with microprocessors
PHP	**Good**	Worked on few projects
JavaScript	**Excellent**	Worked for 10+ years

Databases

MS SQL	**Very Good**	Everyday work
Oracle	**Good**	Worked on few projects
My SQL	**Good**	Worked on few projects
DB Lite	**Good**	Worked on few projects
MS Access	**Good**	Worked on few projects

OS & IDE & Source code versioning systems

Visual Studio	**Excellent**	Worked for 10+ years
Team Foundation Server	**Very Good**	Used for source control

Projects

Directory portal (2010-2015)

Type of employment: Permanent employee

It is directory like portal with list of all relevant small and middle Croatian companies, grouped by activity and relevancy. In addition, clients have additional features like news, coupons with discounts, additional subpages, web shop, etc. Application contains PCIDSS compliant web shop with CC payment option. Administration includes powerful CRM which includes client management, order, bills and payments. Bills are generated using Crystal Report engine.
Technology used is ASP.NET, ASP.NET AJAX, C#, JavaScript, MS SQL, Crystal Reports.
Krunoslav's role on this project is System Architect and Software Developer.

Interactive TV portal (2012-2015)

Type of employment: Permanent employee

Portal contains front-end, interactive tv widget and administration. Administration is used to manage content of "interactive tv" widget which is published on big publisher portals. Interactive TV is advertising widget which works in the almost the same way as youtube.com. When visitor clicks on movie to watch, there is short video advertising played before the selected movie.
The heart of Interactive TV is powerful video ad server designed and developed by Krunoslav and colleagues. Currently, it handles more than 10 million video servings and more than 200 million total http requests per day.
Technology used is ASP.NET, ASP.NET AJAX, C#, JavaScript, MS SQL, Silverlight, Ice JavaScript framework.
Krunoslav's role on this project is System Architect and Software Developer.

Portal guruasp.net (2005-2012)

Type of employment: Freelancing

Web shop with first version published almost 10 years ago. Since than, it had numerous functional and cosmetic changes. It is a web shop with checkout using 2checkout.com payment gateway. Web shop is used to sell some software components developed by Krunoslav. There are Google ads to cover the expenses.
Technology used is ASP.NET, C#, JavaScript, MS SQL, Ice JavaScript framework.
